Dear Chair of the ALI CURUNG Local Authority,

I am requesting your permission to make a presentation to the ALI CURUNG Local Authority on Monday 10th July 2022. @ 1.30PM.

Give the Local Authority Information about The Hearing for learning Research Project, this project is running in 20 communities across the NT, including Ampilatwatja. The aim is the reduce the rates of ear infections and hearing loss in children aged 0 – 16 years old by training members of each community to be able to check kids ears and provide education to families.

Speaking points that BRC will insert into the Local Authority minutes as a record of your presentation/report

The aim of the project is to reduce rates of ear infections and hearing issues in Ali Curung by training and employing local members of the community.

There will be 6 weeks of training for up to 6 people, requirements are; applicants must be Aboriginal or Torres Strait Islander, complete a literacy assessment (however our trainers are flexible and work to include people with different literacy levels) and have a valid OCHRE card. Our team will visit to recruit. Training will take place in Ali Curung, starting in October.

Training includes 3 accredited units, these can be used towards AHP course.

We will form a community reference group to guide project in Ali Curung; who will decide who does the training and give advice on who should get the job.

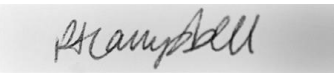

Pending funding approval there will be a job at the clinic for one or two of the trainees after the training is complete. Menzies continues to support from Darwin, and does 3 visits to support workplace integration.

*Local Authority members welcome contributions from outside agencies. We ask visitors to keep presentations to no longer than 10 minutes including questions. * Presentations are not minuted by BRC staff.*

Hi Michael

Thanks for helping me out with the Ali Curung meeting the other week!

I just managed to get this from CLC... and must admit am struggling to find a spot!!

Wonder whether there are people in the council/community who could provide some guidance about where people would want to see dialysis/nurses houses?

Hi again Sarah,

Here is what I was able to find out for you.

The slap map has highlighted in yellow those lots with a current lease, and the ones with no yellow markings are potentially available; I say “potentially” as the CLC lawyers explained there a lot might be leased between now and the time of a new application.

The Excel spreadsheet attached also indicates lots with a current lease.

I hope this is useful for you to work alongside the residents to identify potential lots.

Regards,
Jorge

Hi Sarah,

Good to know you had a good meeting.

I have been away for a few days and I will be on my way to TCK today.

I do not have a date yet for the next CD meeting in AC as I am waiting for a couple of project plans/quotes to be ready before the meeting.

I tried your mobile but had no luck.

Regards,

J
